

OESTERREICHISCHER LLOYD SEEREEDEREI (CYPRUS) LTD.

02.04 - ENVIRONMENTAL PROTECTION POLICY.

Issue date: 01.01.2022

1. The Company is committed to the goal of eliminating any risk that could harm the environment by achieving a high standard of environmental care in conducting safe operation of the vessel. Such commitment to environmental excellence permeates all aspects of its operations and is firmly embedded in the core values, policies and procedures. It is demonstrated by the company's shipboard practices.

It includes complying with all environmental legislation and regulations required by law, and protecting all aspects of the marine/global environment and fostering safe navigation.

2. The Company's commitment also includes the aim to continuously minimise any negative impact on the environment through awareness and compliance by:
 - Using environmentally safe goods and materials.
 - Identifying, controlling and monitoring environmental risks and continuously updating the company safety management system.
 - Promoting the development and use of environmentally safe technology.
 - Educating, training and encouraging employees at sea and ashore to increase their focus on protection of the environment and pollution prevention.
 - Communicating the company's Environmental Policy to all employees, service providers and customers.
 - Keeping consumption of material at lowest possible level:

Capt. Eberhard Koch
CEO & Chairman
